

**8<sup>th</sup> Grade Science-Uddo**  
**Welcome Letter, Review of Class Website**

Welcome to what is sure to be an exciting year of 8<sup>th</sup> grade science!

Since this is a science class and we focus on trying to conserve, the syllabus and any information important to the course is housed online. For that reason, a printed syllabus is not provided.

Please take some time to review the Syllabus/Welcome Letter for 8<sup>th</sup> Grade Science. You will need to access the information directly from the 8<sup>th</sup> grade science website. The address for the site is [www.uddoearthscience.weebly.com](http://www.uddoearthscience.weebly.com)

Upon your arrival you will see there are a number of different tabs. The homepage, will give you basic contact information for getting in touch with me, office hour times and locations etc.

In the first tab you will find the Syllabus/Welcome Letter. Please take a few moments to familiarize yourself with the policies and procedures of the class.

Once you have reviewed the syllabus/welcome letter including policies and procedures with your student, please verify by signing and returning this form to Ms. Uddo, no later than Monday August 16, 2021.
